<u>Southwest Area Development Impact Fee</u>	13
<u>Capital Facilities Fee</u>	14
<u>Housing Allocation Plan Fee</u>	15
<u>Wastewater Demand Fee</u>	16
<u>Water Demand Fee</u>	17

CITY OF SANTA ROSA DEVELOPMENT FEES

Public Facilities Improvement Fee (Local)

The Public Facilities Improvement Fees (Local) provide funding for citywide public improvements required due to the demands placed on existing facilities by new development.

The Public Facilities Improvement Fees (Local) fees are \$600 per residential unit. Fees for non-residential uses range from \$.80 to \$1.05 per square foot.

The Public Facilities Improvement Fees (State & Federal)

The Public Facilities Improvement Fees (State & Federal) provide funding for needs within the City's ultimate urban boundary for additional improvements to State & Federal Highways, which will not be funded by the State & Federal governments, required due to the demands placed on existing facilities by new development.

The Public Facilities Improvement Fees (State & Federal) fees are \$600 per residential unit. Fees for non-residential uses range from \$.80 to \$1.05 per square foot.

Traffic Signal Impact Fee

The Traffic Signal Impact Fees provide funding for citywide improvements to the traffic signal systems required due to the demands placed on existing facilities by new development.

The Traffic Signal Impact Fees are based on the average number of daily trips estimated for each type of development.

Park Acquisition Fee

The Park Acquisition Fees provide funding for acquisition of park lands and on-site improvements to parks required due to increased development.

Park Acquisition fees range from \$1,983 to \$9,676 per residential unit.

Southeast Area Development Impact Fee

The Southeast Area Development Impact Fees provide funding for local Southeast Santa Rosa traffic, storm drainage, sewer, water and public facility improvements identified in the Southeast Santa Rosa Basic Infrastructure Program (BIP). The BIP is the centerpiece for developer financing of the basic infrastructure required within

Southeast Santa Rosa. The Southeast Area Development Impact Fee will fund only those improvements that are specifically related to and required for development to proceed within the boundaries of the Southeast Area Plan.

The Southeast Area Development Impact fees for residential uses range from \$4,470 to \$11,886 per unit. For non-residential uses the fees are \$6.50 to \$6.54 per gross square foot.

Southwest Area Development Impact Fee

The Southwest Area Development Impact Fees provide funding for local Southwest Santa Rosa traffic, storm drainage, sewer, water and public facility improvements identified in the Southwest Santa Rosa Basic Infrastructure Program (BIP). The BIP is the centerpiece for developer financing of the basic infrastructure required within Southwest Santa Rosa. The Southwest Area Development Impact Fee will fund only those improvements that are specifically related to and required for development to proceed within the boundaries of the Southwest Area Plan.

The Southwest Area Development Impact fees for residential uses range from \$6,466 to \$13,004 per unit. For non-residential uses the fees range from \$1.95 to \$9.56 per gross square foot.

Capital Facilities Fee

The Capital Facilities Fees provide funding for citywide traffic, storm drainage and other public improvements that will be required to service new development and to ensure that existing service levels do not deteriorate with the advent of new growth. To the extent that required improvements serve both new and existing development, only the portion that is attributed to new development is included in the Capital Facilities Fee program. Fees collected must be spent in the following proportions:

Local Transportation, Traffic Signals, Local Reconstructions	19.5%
Regional Transportation	43.3
Storm Drainage and Sewer	12.7
Regional Public Safety and Fire	12.8
Mass Transit, Bicycle and Pedestrian	10.7
Administrative Costs	1.0

The Capital Facilities Fee for residential uses ranges from \$3,185 to \$5,352 per unit. For non-residential uses the fees range from \$0.70 to \$8.96 per square foot.

Housing Allocation Plan Fee

The Housing Allocation Plan was established to assist in the development of affordable housing in Santa Rosa. While some developers are required to provide affordable units, the majority pay a fee in lieu of providing units. The fee is based on a unit's size and is charged for units larger than 900 square feet. The per square foot fee increases as the unit size increases, starting at \$0.97 per square foot for a 910 square foot unit to a maximum of \$8.79 per square foot for units of 4,500 square feet and above.

Wastewater and Water Demand Fees

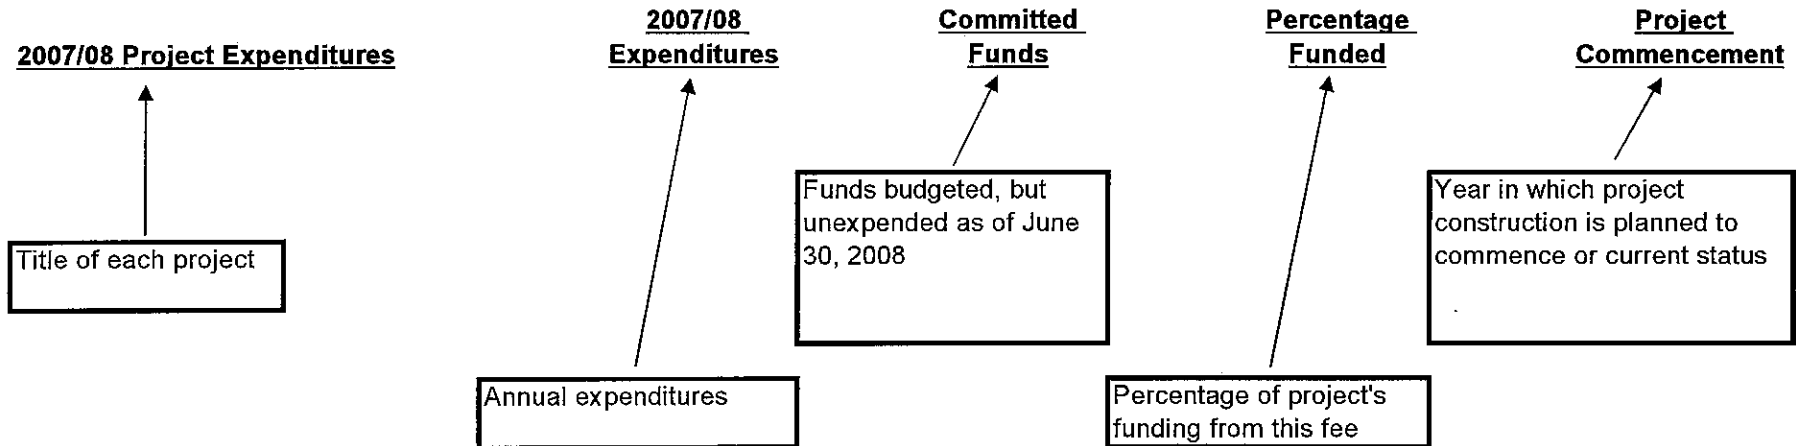

Wastewater and Water Demand Fees provide funding for improvements to the Water and Wastewater utilities required to expand the delivery systems to provide for new customers and to recover a fair share of the cost of existing facilities.

Wastewater demand fees for residential uses range from \$4,643 to \$14,392 per unit. Wastewater demand fees for commercial usage vary depending upon the type of use. Water demand fees for residential uses range from \$1,527 to \$16,802. Water demand fees for commercial uses are \$509 per 1000 gallons/month at maximum monthly usage.
